

Hi my name
Hola is
Salut Vladislav

VueJS Developer

 <https://www.linkedin.com/in/caraseli>

I'm a highly skilled and motivated developer specializing in Vue.js and Nuxt.js. With a strong focus on building robust and efficient components, I take pride in creating visually appealing and user-friendly front-end applications.

Passion:

I am passionate about writing clean, well-documented code and always strive to deliver elegant and efficient solutions. My attention to detail helps me craft visually appealing interfaces that offer a seamless user journey.

Goal:

My goal is to continue contributing my Vue.js and Nuxt.js expertise to exciting projects, collaborating with clients to build innovative web applications that exceed expectations. As a remote developer, I thrive in a flexible environment, allowing me to efficiently manage project timelines while delivering exceptional results.

HTML CSS JavaScript Adobe XD

Web Developer Apimosa SL 2020/03 - 2021/08

VueJS Taiw lindCss Firebase

The main goal of this position was to build from the ground up an attendance app.

I created an Adobe xD design of the app and converted it into a fully functional PWA App.

VueJs Developer SkipsoLabs 2021/09 - 2022/05 Self-employed

HTML CSS SCSS VueJS StoryBook

SkipsoLabs was a great opportunity to grow as a vuejs developer.

In this position, I learned storybooks and improve my vuejs knowledge while building a components library.

VueJs Developer Innovation Strategies 2022/06 - 2022/11 Part-time

VueJS StoryBook PrimeVue Typescript ViTest

Great company with a fantastic team. A company that is not afraid to use the latest technologies. I had a great opportunity to discover the power of typescript. I learned how to create and deploy micro frontends and collaborated on the creation of a complex data table extended from primevue and documented in storybook.
